Curated by Irina Gordienko

Quiet Objects explores textile as a contemporary artistic language — tactile, sculptural, and deeply connected to atmosphere, materiality, and space.

Bringing together artists working across weaving, embroidery, and fiber-based practices, the exhibition unfolds as a meditation on texture, rhythm, and the quiet emotional presence of handmade forms. Suspended between art, object, and interior, the works invite a slower and more sensorial encounter with material — one shaped through gesture, repetition, softness, and time.

Presented within the intimate setting of The Vintage Hotel, the exhibition moves beyond the conventional gallery format, allowing textile to exist in direct dialogue with architecture, light, and lived space. Here, the works emerge not as isolated objects, but as subtle spatial presences — shaping atmosphere, absorbing light, and quietly transforming the experience of the interior itself.

Part of The Creative Series by THE CURATED LISBON in partnership with The Vintage Hotel, the exhibition reflects the platform's ongoing exploration of contemporary art, collectible design, craftsmanship, and cultural programming within hospitality and architectural environments.
